

Our Home

Our pastures are situated in the heart of the California redwoods, on the Pacific Ocean, offering a cool, wet climate which produces green grasses year around and abundant natural forage.

Alexandre Kids

The five Alexandre Kids started raising pastured hens in mobile chicken coops while growing up on their parent's grass-based organic dairy farm. The hens benefit from a commitment to holistic farming practices, lush green pastures, animal welfare, and environmental stewardship resulting in nutrient dense eggs.

Organic Eggs

We, the **Alexander Kids**, love baby chicks and they become laying hens. Our hens enjoy a natural lifestyle roaming in our organic corn pastures to produce the most nutritious organic eggs. You will see the deep, rich orange color in the yolk and the brownness in the whites. Each brown egg is seen, laid and hand gathered, such is a nutrient dense, whole food package of essential vitamins, minerals and proteins.

So while our chickens may have it good, you'll have it even better when you use our delicious, nutritious farm-fresh organic eggs.
