# REGENERATIVE DESIGN AND NATURE AWARENESS PROGRAM:

A MARRIAGE OF PERMACULTURE AND NATURE CONNECTION

A person is seen from behind, standing in a vast, open landscape. The sky is filled with dramatic, dark clouds, and the sun is low on the horizon, creating a strong backlighting effect. The landscape features rolling hills and sparse vegetation. The overall mood is contemplative and expansive.

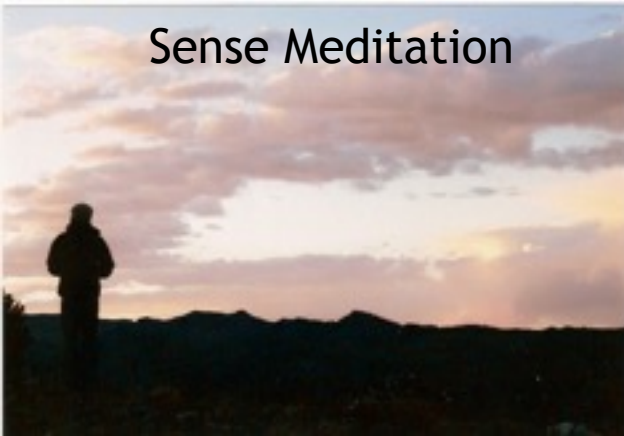

“We must mature into people who are first and foremost, citizens of Earth and residents of the universe, and our identity and core values must be recast accordingly.”

~ Bill Plotkin

## MAMMALS OF THE BIOREGION:

# EXAMPLE: BIOREGIONAL CONSIDERATION

- Clients are wildlife enthusiasts – wanting their home to be a healthy part of the surrounding ecosystem.
- The watershed hosts diverse native plant and animal life. Sign and sighting of Bobcat, Raccoon, Deer, Coyote, Skunk and Badger have been observed on the property. Mountain Lions frequent the ridge tops of the watershed
- Stream corridor feeds known Steelhead Trout and Coho Salmon spawning creek.

Protecting and rehabilitating the riparian corridor is critical to this design.

THANK YOU.
